

Sika at work

76 Morgan Street Wagga Wagga NSW, Australia

Roof Refurbishment with Adhered Roofing System

Roofing: **Sarnafil®**, **Sarnacol®**

Requirement

76 Morgan Street is located in the heart of Wagga Wagga and is home to most of the public service departments including Police, Defence, Transport & Education. The existing waterproofing membrane had failed and water ingress was affecting the offices. The asset owner required a waterproofing solution that would offer years of performance in this harsh environment.

Solution

After the existing rubber based membrane was removed **Sarnafil® G 410-15 L Felt** was fully adhered with **Sarnacol® 808** and a perimeter securement with **Sarnafil® U Bar** was installed. The standard **Sarnafil® G 410-15 L** membrane was used on all upstands and around plant equipment.
